PRAVEEN S

Electronics & Communication Engineering Student

+91 9159285636 | praveen.signes@gmail.com | github.com/pravin-maker | Coimbatore, Tamil Nadu

CAREER OBJECTIVE

Motivated Electronics & Communication Engineering student with hands-on expertise in embedded systems, microcontrollers, and IoT solutions. Seeking to apply practical skills gained through internships, academic projects, and industry-relevant certifications to contribute meaningfully to real-time engineering challenges in automation and digital technologies.

EDUCATION

B.E. Electronics and Communication Engineering · Coimbatore Institute of Engineering and Technology, Coimbatore
2023 – 2027

INTERNSHIPS

Embedded Systems Intern · Corporate Web Solutions *Jan 2026 – Jul 2026 (6 Months)*

- Worked on programming, microcontroller interfacing, circuit design, and real-time systems.
- Actively participated in hands-on training and project development activities related to Systems Design.
- Covered practical implementations and project-based learning aligned with industry standards.

IoT Intern · Emertxe *Mar 2026 – Apr 2026 (~7 Weeks)*

- Gained foundational programming skills in C and microcontrollers.
- Completed SDLC-based project building in IoT domain with hands-on exposure.

IoT Intern · Emertxe *Aug 2026 – Sep 2026 (~5 Weeks)*

- Completed online IoT internship with practical implementation through a capstone project.
- Project: Edge AI Based Smart EV Charging Station Optimizer — demonstrating real-world IoT + AI integration.

Artificial Intelligence Intern · Rinex Technology *May 2024 – Jun 2024*

- Completed AI internship with Grade A+ in associated coursework.
- Gained exposure to AI fundamentals, tools, and practical applications.

Machine Learning Intern · Rinex Technology *May 2024 – Jul 2024*

- Completed Machine Learning internship program with Grade A+.
- Studied ML algorithms, model building, and evaluation techniques.

PROJECTS

◆ **AI-Based Predictive Fault Detection for Rotating Machinery** — *Vibration analysis using ESP32 + MPU6050; TinyML classification in Phase 2 (Major Project)*

◆ **Edge AI Based Smart EV Charging Station Optimizer** — *IoT + Edge AI capstone project — real-time optimization of EV charging using intelligent control*

- **IoT-Based Event Registration System** — *Automated event check-in using IoT hardware and wireless communication*
- **Smart Home Automation** — *Microcontroller-driven home automation with wireless control interfaces*
- **Smart Gas Leakage Detection & Electrical Safety System** — *Real-time hazard detection using ESP32, gas sensors, and alert mechanisms*
- **Automatic Attendance Maker** — *RFID / sensor-based automated attendance logging system*
- **Automatic Street Light Control** — *LDR-based adaptive street lighting using microcontroller logic*

TECHNICAL SKILLS

Languages: C • C++ • Embedded C • Verilog HDL

Platforms/MCUs: ESP32 • Arduino • Microcontrollers

Tools: Arduino IDE • KiCad • VLSI / SoC Design

Hardware: PCB Design & Fabrication • Soldering • Circuit Assembly • Home Electrical Wiring

AI / ML: Machine Learning • Generative AI • AI Tools (be10x, ChatGPT)

Other: PLC & DCS • RAG (Retrieval-Augmented Generation) • IoT Systems

CERTIFICATIONS & WORKSHOPS

- **Certificate Course in Programming in C, C++ — First Class** — PTCEE / Pentatech Tamilnadu Computer Education *(Apr–Jun 2023)*
- **AI Upskilling Certificate: Technical Foundation** — Qualcomm *(Mar 2026)*
- **Artificial Intelligence Course — Grade A+** — Rinex Organization *(May 2024)*
- **Machine Learning Course — Grade A+** — Rinex Organization *(May 2024)*
- **VLSI SoC Design using Verilog HDL** — Maven Silicon *(Nov 2025)*
- **Verilog HDL — Hands On** — Maven Silicon *(Nov 2025)*
- **VLSI System on Chip Design — Overview** — Maven Silicon *(Nov 2025)*
- **PCB Design & Fabrication Process Workshop** — New Technology Institute, Coimbatore *(Sep 2023)*
- **Arduino Programming 2.0 Skill Development Programme** — New Technology Institute, Coimbatore *(Oct 2023)*
- **AI Tools & ChatGPT Workshop** — be10x *(2026)*
- **Generative AI Mastermind** — Outskill *(Feb 2026)*

LANGUAGES

English (Professional Proficiency) **Tamil** (Native)
